

## Library

05/06/2025 01:59 by rampolyphg

Â

**Environment & Facilities** The library has a dedicated, peaceful reading area equipped with comfortable seating, good lighting, and a disciplined atmosphere. This helps students focus, revise, or prepare for exams without distractions. Basic services such as book issuing, return, referencing, and reservation are managed efficiently through a well-maintained record system. Notices regarding new arrivals, exam preparation materials, and syllabus updates are regularly displayed on the notice board. The library staff is cooperative, attentive, and trained to guide students in finding the right resources and using the catalog system effectively.

Â Â **Purpose and Vision** Â The primary objective of the library is to support academic development, encourage reading habits, and provide a space for self-directed learning. It plays a critical role in: Â Â Supporting teaching and coursework by providing relevant study material Â Encouraging research orientation and technical skill-building Â Promoting reading, discipline, and curiosity among students Â Helping students become independent learners and responsible individuals

At Ramgarhia Polytechnic College, the library is not an optional facility “ it is a core component of our academic foundation. It reflects our commitment to quality education, student empowerment, and academic excellence. Whether a student is revising before exams, researching a topic, or simply exploring a new idea “ the library stands as a trusted partner in their journey of knowledge and growth.
