

Message from the Principal -World Day to Combat Desertification and Drought

16/06/2025 23:16 by rampolyphg

Â On the Occasion of World Day to Combat

-
Desertification and Drought â€“ June 17

On this important day,Â World Day to Combat Desertification and Drought, I extend my warm wishes and a call for awareness to all students, faculty, and stakeholders ofÂ Ramgarhia Polytechnic College, Phagwara. This globally recognized United Nations day reminds us of ourÂ shared responsibility to protect our land and environment. As we face increasing challenges due toÂ soil degradation, drought, and deforestation, it becomes crucial for academic institutions like ours to take the lead in promoting environmental awareness and sustainable practices. This yearâ€™s theme â€“
â€œRestore the land. Unlock the opportunities.â€•

â€” encourages us to look at land restoration not only as an ecological necessity but also as a powerful tool for generating employment, strengthening food security, and building climate resilience.

Â At our college, we believe thatÂ technical education must walk hand-in-hand with social and environmental responsibility. Through awareness drives, green campus initiatives, and student-led plantation campaigns, we aim to instill a sense of responsibility and care for the Earth in every learner. I urge all members of the Ramgarhia family to reflect on how their everyday actions â€” no matter how small â€” can contribute toÂ a more sustainable future. Let us stand united in this mission toÂ protect our land, preserve our resources, and prosper together. Warm regards,

Mrs. Rupinder kaur

Principal

Ramgarhia Polytechnic College, Phagwara
