

World Hepatitis Day

27/07/2025 22:49 by rampolyphg

Â World Hepatitis Day 28 July 2025 "Hepatitis: Let's Break It Down"

Ramgarhia Polytechnic College, Phagwara observes World Hepatitis Day 2025 with a commitment to spreading awareness, promoting prevention, and supporting action toward eliminating viral hepatitis.

Â This year's global theme, "Hepatitis: Let's Break It Down," focuses on dismantling barriers that hinder testing, treatment, and awareness. The goal is clear: simplify access, reduce stigma, and eliminate hepatitis as a public health threat by 2030.

As an educational institution, we encourage all students, staff, and members of the community to:

Understand the risks and symptoms of hepatitis

Get tested and vaccinated where recommended

Promote safe health practices in daily life

Help build an informed and stigma-free society

Let us come together to create a healthier future where education, early action, and compassion lead the way to a hepatitis-free world.
