## **Mechanical Engineering Department**

| Head of Department:   | Er. Gaurav Kumar                  |
|-----------------------|-----------------------------------|
| Name of the Faculty:  | Er. Garandeep singh               |
| Discipline:           | Mechanical Engineering Department |
| Semester:             | 5th                               |
| Subject:              | BASICS OF MANAGEMENT              |
| Lesson Plan Duration: | 16 Weeks                          |

#### RATIONALE

The diploma holders are generally expected to take up middle level managerial positions, their exposure to basic management principles is very essential. Topics like Structure of Organization, Leadership, Motivation, Ethics and Values, Marketing management, Financial management, Customer Relationship Management (CRM) & Total Quality Management (TQM), etc. have been included in the subject to provide elementary knowledge about these management areas.. This course explores cyber-security measures and the different forms of cybercrime and emergent forms of cyber-warfare..

#### **Learning Outcomes**

After undergoing this course, the students will be able to:

- CO1. Explain the principles of management including its functions in an organization
- CO2. Have insight into different types of organizations and their structures
- CO3. Inculcate leadership qualities to motivate self and others.
- CO4. Manage human resources at the shop-floor.
- CO5. Maintain and be a part of healthy work culture in an organisation.
- CO6. Use marketing skills for the benefit of organization
- CO7. Maintain books of accounts and take financial decisions
- CO8. Undertake store management
- CO9. Use modern concepts like TQM, TPM and CRM.
- CO10. Distinguish and classify the forms of cybercriminal activity and the technological and 'social engineering' methods used to undertake such crimes
- CO11. Analyse and assess the impact of cybercrime on government, businesses, individuals and society.
